There are times, when, in operating a school, parents and friends of the school transport children for various school activities. In order to protect the school, as well as the operator of the automobile, the following rules will prevail:

1. The owner-operator must carry liability insurance on his/her private car and be **25** years of age.
2. The school insurance company will only provide **secondary** coverage.
3. The owner-operator must have on file in the school office a copy of the **Declaration of Insurance** (verifying \$300,000 liability coverage) and copy of the **driver's license**.
4. The owner-operator and the school principal must jointly **sign** the following transportation form, in order to protect both parties – school and owner-operator.
5. The owner-operator has taken the **Safe Environment Class** and the school has record of this on file.

The owner-operator signifies that he/she carries \$300,000 of liability insurance and is willing to transport school children according to the laws of the State of Idaho.
